# eC-Card Scheme

## Stock

Usage of stock will be monitored and a re-supply triggered when you fall to, or below **10 units** of stock. At this point you will be sent another **20 units** worth of supplies to ensure you have enough stock at all times.

**1 unit = 10 Condoms**

If your delivery fails to arrive or your stock runs low due to increased demand please contact the service intelligence centre.

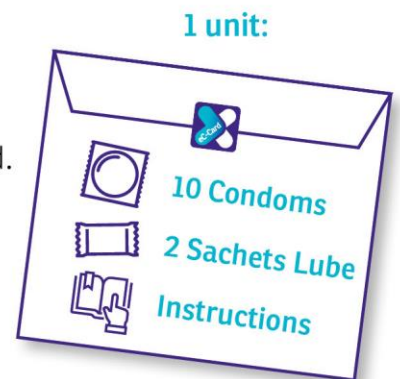

## Dispensing Bag

eC-Card users are issued with **one unit** per transaction.

Transactions are limited to **one** per **7 day** period.

Users who for whatever reason are **unable** to complete the transaction should contact the **service intelligence centre**.

## Transaction

User informs staff at venue that they would like condoms via the eC-Card scheme

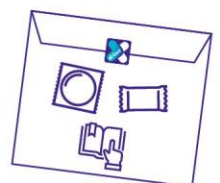

Venue staff member presents user with the venue QR code

User scans the QR code

Transaction is confirmed with 'audible bleep'

Venue hands over one pack to the user

**Do not dispense condoms to a user if they are unable to scan the QR code. These users should be directed to contact the service intelligence centre**

If there are any concerns of danger or you feel the young person may be at risk - please follow your local safeguarding process.
